[Current Avalanche Advisory](#)

(Press "Ctrl" and click to follow links)

[Bridger Range](#), [Northern Gallatin Range](#) : Slopes with a wind-load have a **MODERATE** avalanche danger since it's possible to trigger avalanches on them today. All other slopes have a **LOW** danger. More than a few inches of snow will quickly bump this danger up further.

[Madison Range](#) [Southern Gallatin Range](#) [Lionhead area near West Yellowstone](#) [Cooke City](#): For today, the avalanche danger on any wind-loaded slope is **CONSIDERABLE**. Slopes without a wind-load will have a **MODERATE** avalanche danger since it's possible to trigger slides on these slopes too.

Sunday: Partly cloudy. Highs 3 to 9. Lows 7 below to 15 below zero. Lowest wind chill readings 20 below to 30 below zero in the morning.

Monday: Partly cloudy. Highs 4 to 10. Lows 6 below to zero.

Tuesday: Not as cold. Mostly cloudy with a 40 percent chance of snow. Highs 15 to 21. Lows zero to 8 above.

Wednesday: Partly cloudy. Highs 21 to 27
